OFFICE NOTE.

SUBJECT. Re Kayenquitta village of Abalwady in the Manadeya Taluk.

× Serial No: 11.
LAST REFERENCE. Letter No. × 1116 dated 14th March 1893.
from the Dy Commr Mupore Distt.

No 109 of 30th April 1890. (Serial No 1).

The accompanying is a precis of the case submitted by the Deputy Commr of the Mupore Distt with his letter cited in the margin, in which he reported that the Inamdar of the village (the Para-Kalaswamy), when requested to carry out the repair of the Abalwady Tank, stated that he

was unable to do so, as the cost might amount to more than Rs.1000 and that therefore the village might be resumed to Govt. and the repairs be carried out by Government. The Deputy Commr. further stated that the Ex: Engineer desired that the whole earth work should be done by the ryots, but they expressed their inability to do so, as the earth work necessary to bring the tank up to standard would be very expensive and that they were willing to contribute Rs 300 and required whether a formal Razinama should be obtained from the Para-Kalaswamy.

out of consideration to the Matt.

(2). That all ordinary repairs to the tank shall be executed by the Matt as hitherto

(3). That in case Govt should decline to accede to the 1st proposal, the Settlement of the village now made should be cancelled, and that the Matt would then consider whether it would be advisable and profitable to repair the tank as required by Govt

(4) That the restoration and improvement of the tank would probably yield additional revenue, and that Govt might bear the cost and remain in possession of

the village, till it was
recovered, and then re-
store the ~~Nadu~~ village
to the Natt. The Kuzpai
officer stated that the
village was still under
the Management of the
Natt, and that the Swa-
my said that the village
might be resumed, if
the Govt could not con-
descend to any of the above
proposals. The Dyaconner
stated that the 4th pro-
posal seemed reasonable
and might be entertained,
and that proposal No: 3
could not be entertained,
as the ryots had the
Survey guarantee ac-
corded to them

4. The Dyaconner was

Vide this Office Docket No. 4788/1262 of 9th August 1890.

(Serial No: 4).

Vide Dy/Commrs letter No. 668 dated 22nd aug: 1890.

(Serial No: 5)

asked to state the date of the Kaziriama tendered by the late Shirestedar of the Matt.

5. The Dy/Commr reported that the date was 17th December/88, and that the Aiuldar had under Sec: 142 para 2 of the Land Revenue Code, recovered from the ryots, the Khayamputta amount for the years Sarvadhari (1888-89) and Virodhi (1889-90) leaving a balance of Rs. 26-13-8. The Dy/Commr further requested that instructions might be issued to the D. P. W. Secretary in regard to the repair of the village tank, and solicited orders for the taking of the village

under the management of Govt.

6. Thereupon the Secretary in the D.P.W. was requested to state the probable cost of restoring the village tank and also the revenue that might be expected therefrom; and the Dy Commr was requested to recover from the ryots of the village the Khayam-patta amount due to Govt under sec: 142, para 2 of the Land Revenue Code.

Vide Pro: No 6476-7 / 165 dt 4th September 190: (Serial No 6).

7. In reply, the Chief Engineer forwarded docket No 3411/425 dated 4th September 1890, from the Ex Engineer Nuzvid Division in which that Officer submitted a project for restoring the tanks in question at an

Vide Chief Engineer's letter No: 4279 dt 19th September 191 (Serial No: 7).

Estimated cost of Rs. 3860 and reported that the Atchcut of the tank being 71 acres, a revenue of Rs. 332 was derived therefrom as per account furnished by the Auditor, and that if the tank were to be brought up to standard at present weir level, it could irrigate 86 acres. The Chief Engineer stated that it was doubtful whether, with its capacity of 57 units and mean depth of only 3 feet, the tank could, in this dry Taluk, irrigate more than its atchcut of 71 acres.

Vide Petition No. 321. (Serial No. 8)

8. On 30th July 1892, Thammayya and certain others

of the Kayampatta village submitted a petition to this office requesting that the management of the village might be fully taken up by Government and a remission granted on the wet lands below the village tank, till it was restored and brought up to standard and that full assessment on all wet lands in the said village remitted for that year (1891-92)

9. Again on the 28th August 1892 Gowdappa and others of the same village represented that the village was resigned by the Parakalaswamy Mutt to which it once belonged, that the revenue of the village was collected

Vide Petition No. 618. (Serial No: 9.)

Petition submitted with the Dy Comrs letter.

and the Sub-Division officer, and that the agent of the Mall has now applied for orders to repair the tank in question & the object of the request is not apparent.

Submitted for orders.

D.G.
12/6/93

The agent of the Mall in his yadi of 18.2.93 to the Dy Com submits that the Mall is put to loss the Engineering Dept having removed the Kodi of the Abalwadi tank & also raised the Kodi of the Koppa tank. In Conclusion he prays that the work of repairing the Kodi may be put in hand early.

Deputy Commissioners Office,
Mysore District

Dated. Mysore 30 April 1890

From,

G. F. Micklejohn Esqre
Deputy Commissioner

To,

The Chief Secretary to the
Government of Mysore

Sir,

I have the honor to forward herewith a file of papers (31 in number) and a precis prepared in this office regarding the Abalwadi Kere tank Registered No 145, Mandya Taluk, and to state that the Kerandar (the Sarakalaswami) when requested to carry out the work required to be done to the said tank, stated in reply that he was unable to do so, as the cost might amount to more than 1000 Rs: he has stated that the village might be resumed to Government and the repairs be carried out through Government. The Yadi is enclosed herein for reference embodied in the French Rocks Sub Dy Officers docket No 121 dated 17th May 1889.

I request to be informed whether a formal Razinama should not be obtained from the Sarakalaswami, or if this Yadi only is sufficient. The

Executive Engineer desires that the whole earth work should be done by the ryots. This the ryots say they cannot do as the Inamdar having neglected the tank for years, the earth work necessary to bring it up to standard will be very expensive, but they are apparently willing to contribute Rs 300. This money contribution should, I submit, be accepted in lieu of labor and the tank be taken up by the D.P.W.

I have the honor to be,
Sir,
Your most obedt Servt

No. 42

Muzrai Office
Mysore District

Extract Dated — July 1890.

From,

The Muzrai Officer
Mysore District

To,

The Deputy Commissioner
Mysore District

Sir,

With reference to your docket No 886 dated 12th Ultimo, giving cover to Chief Secretary's letter No 1982-148 dated 6th Idem on the subject of the restoration of Abalavady tank, No 145, in the Maudya Taluk, I have the honor to submit for your information and transmission to Government, the statement of His Holiness the Parakalaswami made before me on the 21st Ultimo

2 It appears from the statement of His Holiness that the petition dated 17th December 1888, addressed by Ahobalachar, late Sheristadar of the Mutt, to the Deputy Commissioner, was written with the Swamy's knowledge and permission The income of the village is not sufficient even to meet the cost of its management after paying the Kayemputta amount due to

Government. Since the Survey settlement the income seems to have fallen off considerably. The repairs to the tank in question as proposed by the Govern.t, would it is said, cost between three and four thousand Rupees; and even if they are executed by the mutt, it is not likely that there would be much increase in the revenue of the village

3. His Holiness has therefore directed me to submit the following points for the favorable consideration and early orders of Government.

1.st That the repairs might be executed by the Government at its own cost out of consideration to the Mutt.

2.d That all ordinary repairs to the tank shall be executed by the Mutt as hitherto.

3.d That in case Government should decline to accede to the first proposal the settlement of the village now made should be cancelled and that the Mutt would then consider whether it would be advisable & profitable to repair the tank as required by the Government.

4 That as the restoration and improvement of the tank would probably yield some additional revenue — Government might, if it thinks proper, bear the cost and remain in possession of the village till it is recovered and then restore the village to the Mutt

4. The village is still under the management of the Mutt and Asst Robinson states that it can be resumed if the Government does not or cannot condescend to any of the proposals mentioned above

5. The statistics of the village both before and after the Survey settlement will be found in the enclosed report of the Amildar to the French Rocks Sub Division Officer, dated 9th January 1889

6. The vernacular & English correspondence forming the enclosures to your docket under reference is herewith resubmitted

To

The Chief Secretary to the Dewan of Mysore,
Bangalore

SIR,

With reference to your Camp No 124, dated 29th October 1892, regarding the recovery of the Kayemputtu of the Abbanadoddy Village in the Maudya Taluq I have the honor to state that the Sub Division officer French Rocks reports that as the Mutt has virtually given up the Village, the Cumdayem is being levied direct from the ryots of the Village as per para 2 of the Government Proceedings No 6476.7 dated 4th September 1890. (2) Final orders of Government have been solicited regarding the resumption of the Village, in this office No 668/145 4957 dated the 22nd August 1890, pending which, the Village is managed for purposes of revenue collection by the Amildar and the Sub Division officer.

The Agent of the Mutt has since applied for orders to repair the Abbaddi Village tank. The object with which this request is made is not apparent. The petition is however enclosed for reference.

42 Read,

Correspondence ending with letter No. 1166 dated the 14th March 1893, from the Deputy Commr. of Cuddapah regarding the restoration of Abalwaddy Tank, Registered No 145. in the Malwalli Taluk

Section 42
File No 23-1884
Serial No 10

No 12841-2 / R.F. 346-92 dt 3-2-94/5 Order thereon:-

Put in with file of original papers

The facts of the case are:-

Abalwadi is a Kayem-gutta Village belonging to the Parakalaswamy Matt. The Village has a tank with an atchkat of about 71 acres

yielding a revenue of Rs 332/

The tank breached so far back as October 1884. ~~The Irrandar (Mr Sarabalaswamy)~~ has not since been restored ~~was requested to have the tank restored to prevent danger to the cultivated lands below.~~

~~Thereupon~~ On 17th Dec 1888 the Shristedar of the Matt tendered a Razeenama on behalf of the Matt representing that since the survey settlement which was made in 1888 the revenue had fallen off and was less by Rs 30 than the Kayemgutta amount (Rs 666) to be paid to Govt, that the Matt was unable

(7)

to bear the heavy cost of repairs to the tank, and that the Village might be resumed and the repairs executed by Government. The Swami when questioned by the Muzarai Officer on 21st June 1890, affirmed the Razinama ~~proposed~~ ~~at the same time~~ that the Survey Settlement be cancelled and the matt required to carry out the necessary repairs to the tank, or the repairs be carried out by Govt. placing the Village, if necessary under Government management till the cost was recovered and stated

that if these proposals could not be considered, the Village might be resumed.

2 The Village is now managed for purposes of revenue collection by the Amildar.

3. The Ryots pray that the management of the Village be wholly taken over either by Government or by the Mutt and also ask for remission of last assessment.

4. The Chief Engineer reports that the probable cost of restoring the tank would amount to Rs. 3,860 and doubts whether it will irrigate more than its present Atchkat.

5th. Under such cir-
-cumstances the Government
direct that

(1) the Kayemgutta
village of Abalwadi
belonging to the Parakala
-swami Matt be resumed
as per Matt's Razeniama
dated 17th December 1888

(2) the arrears, if any,
of the Kayemgutta amount
be written off the accounts

(3) the Deputy Commr.
shall introduce the
Ryotwari settlement
in accordance with the
survey settlement
already in force and
place all such land
under the breached tank

on half assessment till
the tank is repaired.
But, if having regard
to water supply for men
and cattle in the neigh-
-bourhood he considers
the tank may be abandoned
and not repaired, the
Government will sanction
its abandonment as
it is never likely to be
remunerative as an
Irrigation work. After
such abandonment
the Deputy Commr.
Should get the Survey
Department to convert
wet rate under it into
dry and to assess

& the bed which should be given out for cultivation

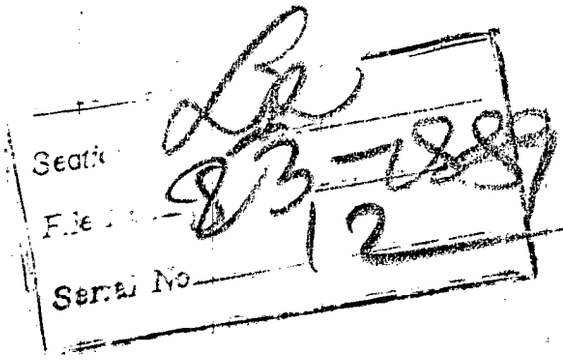
From

The Secretary to the
Government of Mysore.

To The Deputy Comr.
Mysore Dt.



Dated 19.8.96.
Despatched 21
Received
General No. 1986
No. RA 346-92
Enclosure No.

His letter No. 185 dated 7th August 1895, reporting with reference to Govt. order No. 12841-2 / RF 346-92 dated 3rd Feb 1894, directing that the Kayemgutta village of Abalwadi, belonging to Sri Parakala-swamy Matt, be resumed as per rajinama tendered in that behalf & the arrears due thereon written off the accounts, that His Holiness the Swami of the Matt did not absolutely relinquish the village, but merely requested that it might be

ken under Govt
agement till the tank
was restored & the outlay
incurred thereon by Govt was
recovered, & that the said
village is ~~now~~ under the
management of the Swamis
& also that the arrears due
thereon have been recovered.

Adverting to the above,
has the honor to request
that the Deputy Comr
will be good enough to
ascertain from the Swamis
and report at a very early
date, as to how he pro-
poses to deal with the
tank. He cannot retain
the village & yet refuse
to repair the tank.
